

SERVICES

CUSTOM BLOWMOLDING

Scotia Plastics blowmolds both food-grade beverage containers and industrial bottles in a variety of standard sizes. Our experienced production team can also work with you to design a custom bottle for your new or existing product.

FOOD-GRADE BEVERAGE CONTAINERS

Our food-grade beverage containers are made with the highest quality HDPE plastic and available in a number of industry standard shapes and sizes. We also stock an assortment of 38 mm screw caps and our in-house storage facility is equipped to carry safety stock inventories for our customers.

INDUSTRIAL BOTTLES

Our complete range of industrial bottles is manufactured from #2 HDPE plastic to be strong, safe and durable enough to handle anything you want to put in them. We also stock an assortment of 38 mm screw caps and our in-house storage facility is equipped to carry safety stock inventories for our customers.

EXTRUDING

We manufacture and maintain a large inventory of perforated drainage tubing and non-perforated corrugated tubing and fittings in a variety of industry standard sizes including 2, 4 and 6 inch. We also stock 4 and 6 inch filter drainage tubing.
